Council Member Easter ask for clarification of the 50/50 split. Will the cost be shared by ALL citizens or just those in that HOA. Council Member Brewer points out that each HOA will be different and consider on its own merit.

Council Member Arik Towry believes that as a city, this is the right thing to do. All citizens should have roads that can be accessed by Fire/Ambulance services as well as other conveniences. We cannot cherry pick who we help.

Council Member Powers states that he appreciates the work that Jerry has done on this but he has several concerns about the cost and the process and suggested the council hold off voting until more information could be gathered on estimating what this could eventually cost the city. He stated that he felt we should have an idea how to fund this project before we offer it to the citizens. Some of his questions included total cost estimate, how many miles of street will the city own, what is the possible maximum exposure to the city?

Council Member Goodwin also had concerns on the financing of the project. He suggested that there be a maximum dollar amount per year that the city should consider. His other concern was that developers might use this as a loophole to avoid road repairs at their own expense.

Council Member Arik Towry believes that as a city, this is the right thing to do. All citizens should have roads that can be accessed by Fire/Ambulance services as well as other conveniences.

Council Member Dean thanks Mr. Brewer for his hard work on the ordinance. He agrees with Council Member Towry, it is our duty as a City.
